Cartography is the creation and the study of maps and charts - the difference being that maps apply to land and charts are for marine areas (9, p299). It has a long tradition going back at least 4000 years; inextricably tied to geography for most of its history, in the 20th century it has diversified as it becomes more relevant in an age of GIS.

Canada's original inhabitants originated in Asia; as they searched for food, people from that continent crossed the Bering Strait between Alaska and Russia.. Over an indefinite period of time, a wide variety of unique Indian cultures and nations developed and prospered across most of North America, including all of Canada ..

History of Cartography Matthew H. Edney Introduction Until the 1980s, the study of the history of cartography was defined by two idealizations: (1) that maps are strictly factual statements and (2) that cartography is an innately progressive science that serves as a surrogate for Western civilization as a.
