Cartography is the creation and the study of maps and charts - the difference being that maps apply to land and charts are for marine areas (9, p299). It has a long tradition going back at least 4000 years; inextricably tied to geography for most of its history, in the 20th century it has diversified as it becomes more relevant in an and Cartography - Elements of a Map : Directional Indicator Another common map element is a directional indicator. A directional indicator on a map helps determine the orientation of the map. Some cartographers place an arrow that points to the North Pole on the map. This is a "north arrow."
